

## Expansion of the RotllanTorra Vineyards

As you will already know, Rotllan Torra already own a large number of hectares of vineyards in the Torroja de Priorat.

We have a guaranteed supply of Granache and Mazuelo (indigenous varieties) of three different types which are: Granache 1, variety of 11 years, Granache 2, of 10 to 50 years, Granache 3, of 50 to 70 years, and Granache 4 of more

than 70 years. We follow the same process with the Mazuelo (Cariñena).

We have been doing this for many years because we like to strengthen the indigenous varieties of the Priorat which have been growing here for hundreds of years.

However, thanks to the hard work we put into the development and expansion in every department but especially in our vineyards, we

have also planted other French varieties which bring their own contribution to the improvement of the vineyards.

The varieties which we have had planted for years are: Syrah, Merlot and Cabernet Sauvignon.

Likewise, as an experiment in the

year 2000 we planted varieties such as Malbec, Pinot Noir and Cabernet Franc.

This year in 2011, we have continued widening the Pinot Noir vines and they are giving very good results.

In the photographs you can see how we carry out the planting process of the new Pinot Noir vines.

As you can see, the process is totally manual and extremely laborious.

## Branding of Cars with the Autor Image

Sergi del Campo, the distributor in the Vallés area of Catalonia of our Autor brand, has put the logo of our Autor wines on his company cars as you can see from the photograph.

As you know, Autor is a brand that was created by the Rotllan Torra Group two years ago which offers

products of high quality at very competitive prices.

We currently have 3 types of wines: Autor Semicrianza, Autor Crianza and Autor Reserva.

We hope you have the opportunity to taste and enjoy them.
