

Wine Tasting at Enoteca Monserrat (Mataró)

Rotllan Torra took part in a wine tasting where numerous wines were tasted, among them the Rotllan Torra Reserva 2.002, which proved to be a great success among those attending.

In this collection, as you will see from the photograph above, we held an exhibition of our sweet wines for the *Castanyada* and Halloween.

The photograph above shows the moment when the bottles of the Rotllan Torra Reserva 2.002 were opened for tasting.

The photograph below shows some of the participants of the wine tasting.

Conference organised by ADEC about the Labelling and Internationalisation of Wine

On 13th November 2007, Jordi Rotllan attended the conference held in Barcelona where he actively intervened in defence of the internationalisation of wine.

On the agenda were distinct speakers, each of whom defended his position on the topic. Among the attendees was the Secretary for Linguistic Politics from the Parliament of Catalonia, Bernat Joan.

Rotllan Torra collaborates and participates with public and private entities in order to promote the intelligent consumption of wine and to

increase the consumption of it in a moderate and sensible way.

In effect, it is not about drinking more, it's about enjoying and appreciating wine in small quantities.

News

Swiss Tasting

At the end of last year, a wine tasting was held in Switzerland. It took place over two days where numerous Priorat wines were tasted. Worth a mention was the tasting in which the evolution of each wine was tested, and as such each wine was tasted several times. Our wine selected for this particular tasting was the Tirant 2001, which was a success and achieved **96 out of 100**.

Rotllan Torra in the Panamanian Press

As you know, Rotllan Torra is present in over 40 countries, one of which is Panama. Thanks to the work of our importer there, Felipe Motta, we present this article which was published in the local Panamanian magazine *Agenda*, where our Rotllan Torra Reserva appears.
