

Bodega Rioja visits the Rotllan Torra Winery

On the 17th May, our importers from Austria, Bodega Rioja, Beate Espinoza-Mayr visited our winery in the Priorat.

They visited with a large group of sommeliers and professional lovers of wine.

They visited firstly the winery where they were shown the whole wine-making process, for example how the wines are

aged in the barrel and the bottle, how they are bottled and other different aspects from the world of wine.

After the tasting in our winery, we went for dinner in a restaurant in Torroja de Priorat where we were able to enjoy good food from the Priorat region along with our wines.

The wines tasted were the Rotllan Torra Crianza, Rotllan Torra Reserva, Balandra, Amadis and Tirant. All the wines were a great success.

Rotllan Torra works with gift experiences

Here at the Rotllan Torra group, which includes the wineries Rotllan Torra, Autor and Aribau Cuvée, we wanted to encourage a greater number of people to come and visit our wineries.

By doing this, we would be able to allow the private client to see at first hand how we make all our artisan products.

We are currently working with four gift experience companies through which people come from all over Spain to visit our vineyards and wineries.
